

**Table 2
Emergency Functions of Government
and Non-Government Agencies**

Acronym	Department	Primary Function(s)	Support Function(s)
ADMIN	Administration (City of Ripon, including the Mayor's Office)	EOC Operations Assist with coordination of resources	Incident Command assist Notifications Initial and detailed damage assessment Shelter Operations Procurement coordination with Finance Volunteer Management Recovery Operations
ATT	Attorney (City of Ripon)	Provide legal advice from set up through recovery as needed	As needed Initial and detailed damage assessment
BD	Building Department (City of Ripon)	EOC Operations Facility Restoration Environmental Restoration (Building related – mold, asbestos, etc.)	Evacuations Notifications to government Initial and detailed damage assessment Shelter Operations
CALOSHA	California Occupational Health and Safety Administration	Hazmat/Toxic/Radiological operation Medial/public health	Notification, Requests for Assistance, and ongoing communications as needed. Initial and detailed damage assessment Recovery operations
CALTRANS	California Department of Transportation	Evaluate damage to bridge crossings, roadways and railways	Coordinate Extended Response Damage Assessment Activities and Reporting. Recovery operations

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
CAOES	State of California, Office of Emergency Services	Incident Command (County level) Situation Status EOC operation Medical Notifications and ongoing communication with government agencies and the public Initial and detailed damage assessment Establish perimeter, control access, initiate traffic/crown control Evacuations coordination Transportation corridor evaluation Shelter operations Secure transportation corridor Hazmat/Toxic/Radiological operations Documentation Procurement coordination Volunteer management Fatalities management Mobilize flood crews, check for injured personnel Public Health and Medical Service	Roadway, railroad, and bridge assessment coordination Utilities Equipment/vehicle storage Fire suppression and rescue Evidence control Recovery operations
CDC	Center For Disease Control	EOC operation (pandemic disease) Public Health and Medical Services Welfare	Notifications and ongoing communication with government agencies and the public Hazmat/Toxic/Radiological operation Coordinate Extended Response Damage Assessment Activities and Reporting

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
CEC	California Energy Commission	Utility restoration	Energy facility siting (Planning) Set up EOC operations Energy facilities management including Nuclear Power Plant
CHP	California Highway Patrol	Control access into affected areas Evacuations Roadway and bridge assessment Transportation enforcement along California roadways	Initial and detailed damage assessment Recovery operations
CL	City Clerk (City of Ripon)	Notification and ongoing communication to government agencies and the public Procurement	EOC Operations Initial and detailed damage assessment
COE	U.S. Corps of Engineers	Environmental restoration	Recovery operations Initial and detailed damage assessment
DTSC	State of California, Department of Toxic Substances Control	Hazmat/Toxic/Radiological operations Environmental restoration	Ongoing communication with government agencies Initial and detailed damage assessment Recovery operations
DWR	State of California Department of Water Resources	Hazmat/Toxic/Radiological operations Environmental restoration	Ongoing communication with government agencies Initial and detailed damage assessment Recovery operations
EPA	State of California, Environmental Protection Agency	Hazmat/Toxic/Radiological operations Environmental restoration	Ongoing communication with government agencies Initial and detailed damage assessment

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
ENGR	Engineering Department (City of Ripon)	EOC Operations Roadway, railroad, and bridge assessment and repair Environmental restoration	Incident command assist Evacuations Utilities Ongoing communication with government agencies Initial and detailed damage assessment Recovery operations
FAA	Federal Aviation Administration	EOC operations for aircraft incidents administration Hazmat/Toxic/Radiological Operations Evidence Control	Notifications and ongoing communication with government agencies Initial Damage/Needs Assessment and Reporting Coordinate Extended Response Damage Assessment Activities and Reporting
FBI	Federal Bureau of Investigation	EOC operations for pandemic disease, homeland security, and some hazmat/toxic/radiological operations Control access into affected area Evidence Control	Incident command assistance Ongoing communication with government agencies Initial and detailed damage assessment Documentation Fatalities management Recovery operations
FD	Fire District (Ripon)	EOC operations Fire suppression Hazmat/Toxic/Radiological Operations Fatalities management	Notifications and ongoing communication with government agencies Disseminate public information Establish perimeter and control access Traffic/crowd control and evacuation Initial and detailed damage assessment Recovery operations

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
FEMA	Federal Emergency Management Agency	Incident Command (federal level) Situation Status EOC operation Notifications and ongoing communication with government agencies and the public Damage Assessment Extended Response Disseminate Public Information Establish perimeter, control access, initiate traffic/crown control Shelter operations Hazmat/Toxic/Radiological operations Procurement coordination Volunteer management Fatalities management	Evacuations coordination and assistance to CAOES, SJOES, and PD Roadway, railroad, and bridge assessment coordination Documentation Recovery operations Facility Restoration
FIN	Finance Department (City of Ripon)	Incident command (Finance) Procurement Obtain funding sources for materials, resources, equipment, and shelters Initial and detail damage assessment	EOC Operations support Ongoing communication with government agencies Funding support for departmental and agency needs for all SEMS activities from set up through recovery
FRA	Federal Railroad Administration	Railroad incident response assistance to the CA OES, SJOES, and local government	Assist as needed
HSOC	Homeland Security Operational Center	Incident Command for homeland security incidents	Assist and coordinate as needed by the CA OES, SJOES, and local government
ICS	Incident Command	Emergency Services Manager(See Police Funtions)	See police functions
MID	Modesto Irrigation District	Water Control and Quality	

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
NCRP	National Council on Radiation Protection	Advisory group	Assist as needed
NG	National Guard	Establish Perimeter Control Control Access into the Affected Area Assist with communications Assist evacuations Provide Traffic Secure Transportation Corridors Evacuations	Assist as needed
NGO	Non-governmental organization	Assist as needed	Assist as needed
NIOSH	National Institute Occupational Safety and Health	Notifications and ongoing communication with government agencies and the public. Medical assistance Fire suppression advising Hazardous materials (toxic) radiological response assist	Coordinate Extended Response Damage Assessment Activities and Reporting.
NRC	Nuclear Regulatory Commission	Nuclear power plant incident regulatory and advisory party	Assist as needed
NRT	National Response Team	Assist as needed all aspects from response through recovery especially hazardous materials/toxic/radiological incidents	Assist as needed
NTSB	National Transportation Safety Board	Transportation incident response	Assist as needed
NWS	National Weather Service	Extreme weather incident communication to government agencies and public	Assist as needed
OSHA	Occupational Safety & Health Administration (Federal)	Incident responses involving pandemic disease, national security, and hazmat/toxic/radiological incidents.	Assist as needed

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
PD	Police Department (City of Ripon)	Incident Command (local level) EOC operation Notifications and ongoing communication with government agencies and the public Establish perimeter, control access, initiate traffic/crowd control Secure transportation corridor Evidence control Initial and detailed damage assessment Utilities management Evacuations coordination Shelter operations Hazmat/Toxic/Radiological operations Documentation Procurement coordination Volunteer management Fatalities management Injured Personnel Public Health and Medical Services Check damage and establish communications to Central Dispatch. Care and shelter of livestock	Roadway, railroad, and bridge assessment coordination Recovery operations Utilities shut-down/restore Equipment/vehicle staging Fire suppression and rescue
P&R	Parks & Recreation (City of Ripon)	Volunteer Management Shelter Operations	Assist as requested
PG&E	Pacific Gas and Electric Company	Utility assessment and restoration	Initial and detailed damage assessment results to IC Recovery operations

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
PL	Planning Department (City of Ripon)	Incident Command (Planning situation status) EOC Operations Facility Restoration Environmental Restoration Recovery operations (mitigation planning)	Evacuations Notification to government Initial and global extended response damage assessment Shelter Operations
PW	Public Works Department (City of Ripon)	EOC Operations Roadway, railroad and bridge assessment Initial and detailed damage assessment (water resources) Debris removal Utility restoration	Ongoing communication with government agencies Evacuation assistance Facility restoration Environmental restoration Recovery operations
RC	Red Cross	Shelter operations Volunteer management	Support all phases of response through recovery
SA	Salvation Army	Shelter operations Volunteer management	Support all phases of response through recovery
SJOES	San Joaquin County Office of Emergency Services	Incident Command (County level) Situation Status EOC operation Medical Notifications and ongoing communication with government agencies and the public Initial and detailed damage assessment Establish perimeter, control access, initiate traffic/crown control Evacuations coordination	Roadway, railroad, and bridge assessment coordination Utilities Equipment/vehicle storage Fire suppression and rescue Evidence control Recovery operations

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
SJOES (Continued)		Transportation corridor evaluation Shelter operations Secure transportation corridor Hazmat/Toxic/Radiological operations Documentation Procurement coordination Volunteer management Fatalities management Mobilize flood crews, check for injured personnel Public Health and Medical Service	
SSJID	South San Joaquin Irrigation District	Water Control and Quality	Recovery Operations
SWRCB	State of California Water Resource Control Board	Water quality requirements enforcement (surface and groundwater)	Documentation
USBLM	U.S. Bureau of Land Management	Environmental restoration	Assist as needed
USBR	U.S. Bureau of Reclamation	Ongoing communication with government agencies (flood) Control access into environmentally sensitive areas Initial and detailed damage assessment Environmental restoration and recovery operations	Debris removal Documentation Notifications, Requests for Assistance.
USDOE	U.S. Department of Energy	Utility assessment and restoration Radiological response	Assist as needed
USDOD	U.S. Department of Defense	EOC operation assistance for incidents involving military involvement (e.g. acts of war, terrorism, homeland security issues, federal facility transportation)	Assist as needed

Table 2 (Continued)

Acronym	Department	Primary Function(s)	Support Function(s)
USDOT	U.S. Department of Transportation	EOC operations involving transportation Disseminate public information through State Caltrans office Initial and detailed damage assessment	Ongoing communication with government agencies Other assistance as needed Documentation Recovery operations
USEPA	U.S. Environmental Protection Agency	Hazmat/Toxic/Radiological operations Environmental restoration Disseminate public information Documentation	Ongoing communication with government agencies Initial and detailed damage assessment Recovery operations
USFS	U.S. Forest Service	Control access into environmentally sensitive areas Initial and detailed damage assessment Environmental restoration and recovery operations	Ongoing communication with government agencies Debris removal Documentation
USFWS	U.S. Fish and Wildlife Service	Control access into environmentally sensitive areas Initial and detailed damage assessment Environmental restoration and recovery operations	Ongoing communication with government agencies Debris removal Documentation
USGS	U.S. Geological Survey	Earthquake and flood data and analysis	Disseminate public information through USDOT Assist as needed
